## Welcome to the World of Dragon Warrior!

The Dragon Warrior legend begins anew on Game Boy! Assume the roles of heroes descended from Loto, the legendary hero, and explore the world of Dragon Warrior.

### Play one of two games!

A hero appears in Alefgard who will face the mighty DracoLord. Battle monsters one-on-one as you explore the towns and villages on your way to the evil DracoLord's castle.

Indicates items, spells and other aspects of the game that appear only in Dragon Warrior I.

Three descendants of Loto embark on a quest to thwart the evil cult leader, Hargon, from his plan for world domination. Battle monsters, solve mysteries and restore peace to the world.

Indicates things that appear only in Dragon Warrior II.

I'm your guide  
in this booklet.

Your guide,  
Simon the Slime.

## Dragon Warrior's Tale

Alefgard, a continent ruled by King Lars XVI of Tantegel, has been transformed into a world of monsters by DracoLord. The evil DracoLord has easily rebuffed every effort to defeat him. One day, an oracle prophesied: "In the distant past, the legendary hero Loto defeated the demon king and saved Alefgard from the black shadow of evil. A descendant of Loto will soon arrive. That progeny will bring DracoLord to justice!" Several years later, just as predicted, a hero descended from Loto appeared. The hero's long quest now begins!

### Lady Lora

Lars's only daughter. She has been abducted by monsters under DracoLord's orders. It's rumored she's held captive in a cave somewhere.

If there are no icons...  
the item applies to both  
Dragon Warrior I and II.

### Hero

A young descendant of Loto who set foot in Alefgard. He is the brave warrior who must take the treacherous journey to defeat DracoLord. (In other words, it's YOU!)

## Dragon Warrior II's Tale

The hero of Dragon Warrior departed Alefgard with Lady Lora as his bride. Together they founded a beautiful kingdom on a distant continent. That kingdom eventually split into three prosperous kingdoms.

One day, a hundred years later, an injured soldier arrives in Lorasias, one of the three kingdoms, bearing terrible news. Hargon, a sinister cult leader, is trying to destroy the world with the power of a terrifying being that lives only for chaos.

The Prince of Lorasias, the Prince of Cannock and the Princess of Moonbrook, three descendants of Loto, band together to embark on a grand quest of adventure and danger to halt Hargon's evil design.

### Prince of Lorasias

A hot-blooded prince who has stood up to save the world. Although he's not capable of using any magic, his mastery of weapons is second to none.

### Prince of Cannock

A prince who, although a little timid, is also kindly and committed to peace. He is a warrior who is adept at using both weapons and spells.

### Princess of Moonbrook

Although somewhat strong-willed, the princess has a pure and virtuous soul. She is more adept at using spells in battle than weapons.

## Starting Your Quest

Starting fully prepared is your first step towards saving the world! Learn how to manage your quest!

Let's get started!

### Select "I" or "II"

Insert the Game Pak into the Game Boy and turn it on. The Title Screen will appear. Choose which game you want to play, "I" or "II." Press the A Button to confirm your choice.

### Starting a new game

If you're playing for the first time, you have to make a Journal to record your progress. Choose one of three Journals. After you name your hero, your quest begins!

### Continuing a game

If you have paused your quest, you will be told that a Field Log exists. You can start where you left off by choosing "Yes." By choosing "No," you will resume your quest from the saved Journal. You may also start from a Journal by choosing "Resume quest," then choosing one of the three Journals.

Choose "Yes" to resume your quest from the Field Log. Choose the Journal you want to play.

## Ending Your Quest

Learning how to take breaks from your quest properly is the quickest way to save the world!

### Ending a quest with a Journal entry

Talk to a King in his castle and he'll record your quest in a Journal of your choice. You can choose to take a break from your quest there. Later, you can resume your quest from where you left off by choosing the Journal in which you recorded.

### Ending a quest with a Field Log entry

Except in battle, you can record your progress in a Field Log whenever you like on your quest. Just press START to open the Field Log window and choose "Yes".

You can end your quest in two ways!

## Know Your Journal!

A Journal records such information such as the hero's level and equipment. Learn how they work to help your quest!

There are three Journals each for I and II.

### Settings

The message display speed may be adjusted on an 8-step scale. The smaller the number, the faster the display speed.

### Copy Journal

You can copy one Journal to an unused Journal. If there isn't an unused Journal, delete another Journal and copy to it.

### Delete File

For each game, I and II, up to three Journals may be made. If they're all used, you can delete one or more to make room for a new Journal for starting a new quest.

There are three journals each for 1 and 2.

## How Journals may be lost...

A Journal is vital to your quest because it is the record of your achievements. If you lose your Journal, everything you worked for in your quest is wiped out. If you do anything silly like the examples below, you could end up losing your precious Journal.

### Inserting the Game Pak with the Game Boy on

Make sure your Game Boy is turned off before you insert the Game Pak. Also, make sure the power is OFF before you take out the Game Pak.

### Abusing the Game Pak

The Game Pak is very delicate. Dropping it or bumping it could cause it to lose Journals. Treat the Game Pak with respect!

Never ever do this!

## A Journal and the Field Log are entirely different!

You can resume your quest as often as you like from a Journal. On the other hand, a Field Log is deleted as soon as you resume your quest from it. You should use a Field Log only to take a break from your quest wherever it's inconvenient to record your progress in a journal. If you use a Field Log in a town or a cave, you'll resume your quest at the entrance.

### Journal

You can resume a quest from one as often as you like.

### Field Log

Resuming your quest from a Field Log deletes it.

## Know Your Commands!

For a successful quest, you must learn how to use commands like "EQPT" and "CAST." Master them and master your destiny.
